

ABSTRACT

A print system (0001) includes a print instruction device (0101), a print device (0102) and a print data supply device (0103). The print instruction device (0101) has a print instruction device
5 (0111) which transmits, to the print device (0102), authentication information and a print instruction of print data in a print data supply device (0103). The print device (0102) has a print data requesting unit (0112) which transmits the authentication information according to the print instruction to the print data
10 supply device (0103) and requests a transmission of print data, and a print data receiving unit (0113) which receives the print data from the print data supply device (0103).
